In an interview with a reporter for the Sun the Captain said: 'Kansas City is one of the most important avenues of prosperity that stands open for the progress of the Negro that I found in the United States, and why it has not demonstrated the fact more fully is the lack of race pride among the race. The white people must be some sort of a friend to the race from the consideration they have given you in the shape of one of the greatest instituthe Colored people of Kansas City to take advantage of it by maintaining law and order. The Colored people should pride their women more for no race can prosper unless it prides its women above the men, virtue and integrity must be the password. The Colored people should be independent of politics. I find many beautiful ies and as fine looking ladies as I ever saw in my travel. > THE COLORED WORKING GIRL.

In reading the numerous articles anent the pending investigations into the relation between vice and low wages among working girls, I often wonder if any of the social economists or philanthropists interested ever gives a thought to the peculiar conditions confronting the colored girl.

Debarred by race prejudice from seeking employment in office, store or factory, no matter what her training, education or special aptitude, she must enter the army of house workers to whom employment spells long hours, small pay, scant time for recreation or attention to per-sonal needs—"staying nights" meaning often sleeping in the kitchen (!) or attic or at best sharing one's room with a stranger often personally uncongen-ial. Yes, there is teaching and sewing and hair dressing-oh, the ultifully few "genteel" occu pations for the dusky maid! These are overcrowded and demand special training. The girl not so fortunate as to have succeeded in one of these lines looks longingly over the long list of "wants" at the demand for help in trades, stores and offices, knowing she will meet "no colored need apply," no matter how nature or training may have fitted her to fill the advertised position. Finally she accepts work as a domestic; physically she may not be able to meet the demands upon her strength; or the deadly mono'ony, absence of all association with social equals, or the depressing effect of her environment drives her out to drift with the mass of "unemployed" thronging the city's streets and contributing to the increase of social evil-a bit of flotsam and jetsam in the wreckage along life's stream that might have been a useful portion of the so-cial structure had not the deadly bugbear of "social equality" closed the doors to remunera

tive and congenial employment. You men who so carefully protect and provide for the "working girl," will you give the colored girl a fair chance to an honest and fair livelihood in some of the many avenues open

They have "delivered" with accuracy and despatch to over 30 per cent of the classy weddings and receptions during the past year and now when a function of class is announced its a ten-to-one shot that Harris will handle the

Kansas City, Mo., Jan. 20, 1913. Dear Madam Dabney: I am a mother of four girls. In trying to improve their hair I had tried several prepara tions, but none gave me good results until I used Madam Dabney's XXth Century Preparations. Their hair was thin, barsh and would fall out so that I dreaded to use a comb. Now their hair is growing nicely-does not fall out-has no dandruff-is soft and pretty. Three of these girls are attending Wendell Phillips School, Howard and Vine streets. Investigation will bear out my testimony. I would not be without the XXth Century Preparation in my house.
